

GAURAV SOLANKI

Business/ Data Analyst | SQL, Python, Power BI & Tableau

+44 7438 327408 | gauravsolanki6590@gmail.com | linkedin.com/in/gaurav-solanki-analyst | Nottingham, UK

PROFESSIONAL SUMMARY

I'm a Business and data analyst with around eighteen months of experience spanning financial services, healthcare data and operational reporting. I use SQL, Python, Power BI and Tableau to clean and analyse data, and each role has brought real, measurable improvements in accuracy. Currently on a UK Graduate visa, open to Skilled Worker sponsorship.

PROJECTS

Customer Churn Analysis Dashboard

- Built an interactive Power BI dashboard analysing churn across 7,043 customers — 1,662 churned, a 23.60% churn rate.
- Used Power Query, DAX, slicers and bookmarks to explore drivers by contract type, tenure and support usage; published on GitHub.

E-Commerce Sales Analysis

- Analysed e-commerce sales data in PostgreSQL/SQL using joins, CTEs, window functions and customer segmentation.
- Built a Power BI dashboard tracking £1.64M revenue, 3,000 orders, 800 customers and £547.50 average order value.

PROFESSIONAL EXPERIENCE

Business Analyst — Aston Business Intelligence, London, UK

Sept 2025 – Dec 2025

- Ran AS-IS/TO-BE process modelling and gap analysis on an existing system, which fed into a 30% efficiency improvement once implemented.
- Collected and analysed healthcare management data to identify where processes were falling short, feeding directly into stakeholder recommendations.
- Produced use case diagrams and applied UML to tighten up requirements documentation, cutting rework by roughly 25%.

Financial Analyst Intern — Educate2Trade, London, UK

Jan 2025 – June 2025

- Analysed financial and trading data through genuinely volatile market periods, which fed into a 25% improvement in reporting accuracy and decision support.
- Prepared and maintained regular management reports, giving the team clearer visibility into financial performance and trends — around a 20% improvement.

Administrative Assistant (Inventory & Reporting) — CEVA Logistics, Derby, UK

July 2025 – Present

- Run regular audits and validation checks that have lifted data accuracy by roughly 25%, alongside daily and weekly operational reporting for management.

Volunteer Retail Assistant — British Heart Foundation, Nottingham, UK

March 2025 – June 2025

- Volunteered part-time alongside full-time work, helping with stock management and day-to-day retail operations.

HR & Talent Acquisition Officer — Sarika Rubber Industries, India

June 2022 – Feb 2023

- Managed end-to-end recruitment and onboarding and analysed staff attendance data to support HR decisions.

EDUCATION

MSc International Business — Distinction, Nottingham Trent University

2023 – 2024

- Distinction overall, with additional distinctions in International Business Environment & Strategy, Research Methods and Global Supply Chain. Final consultancy project (also Distinction): developed a funding strategy for a US-based NGO.

BSc Business Administration, Amity University, India

2020 – 2023

- CGPA: 8/10
