Data & BI: Power BI, Power Query, DAX, Data Modelling, Dashboard Development, Data Visualisation

SQL & Databases: SQL, PostgreSQL, Joins, CTEs, Window Functions

Analytics: Excel, Python, Pandas, KPI Analysis, Sales Analytics, Customer Analysis

Tools: Microsoft Excel (Advanced), Tableau, Lucid chart, Balsamiq, GitHub, Jira, Confluence

Methodologies: Agile, Scrum, Waterfall

WORK EXPERIENCE

Business Analyst | Aston Business Intelligence, London/Remote Sept – Dec 2025

- Researched user stories and acceptance criteria to understand functional requirements and translate business needs into proposed solutions.
- Applied AS-IS / TO-BE process modelling and gap analysis to assess current processes and define improvement opportunities.
- Produced use case diagrams and Balsamiq wireframes to communicate current-state gaps and proposed system improvements.

Warehouse Admin Assistant (Inventory & Reporting) | CEVA Logistics, Derby, UK Jul 2025 – Present

- Maintain accurate inventory records within the warehouse management system and support day-to-day operational administration.
- Conduct regular stock audits and validation checks, contributing to a 25% improvement in data accuracy.
- Prepare daily and weekly operational reports to improve management visibility into warehouse performance.

Financial Analyst Intern | Educate2Trade, London, UK Jan – Jun 2025

- Prepared financial reports, forecasts and variance analysis and used Excel for KPI analysis and financial modelling.
- Created performance dashboards using Excel and Power BI to communicate financial and operational performance.

Volunteer Retail Assistant | British Heart Foundation, Nottingham, UK Mar – Jun 2025

- Supported retail, stock-management and customer-service operations in a fast-paced environment.

HR & Talent Acquisition Officer | Sarika Rubber Industries, India Jun 2022 – Feb 2023

- Managed end-to-end recruitment and onboarding activities and streamlined HR documentation workflows.

PROJECTS

UK Rail Operations Performance Analysis

- Analysed 2,563 ORR rail records across 96 reporting periods and 28 operator/national reporting groups, evaluating cancellation performance, causes, trends and operator consistency.

Supply Chain & Operations Business Intelligence System

- Built a BI solution analysing £340.86M inventory value, 2M stock units and 254 products at risk, covering inventory, warehouse and supplier performance.

Customer Churn Analysis

- Analysed 7,043 telecom customers with a 23.60% churn rate, identifying churn patterns, customer segments and factors associated with attrition.

E-Commerce Sales Analysis

- Analysed £1.64M revenue across 3,000 orders, evaluating sales performance, customer purchasing behaviour, product categories and month-over-month growth.
